Tutor: Kim Nelson, kim@mcg.net, (952) 451-9901

Textbook: Bob Jones Geometry, 2nd edition or 3rd edition

CHAT Math website: www.CHATmathclasses.com

Other Materials necessary for class: Each student should have a compass, protractor, calculator, and notebook for taking notes and working out sample problems.

Homework: Expect to spend approximately an hour a day on assignments. Assignment solutions will be handed out at the beginning of each semester. Assignments are to be corrected by the parent and/or student. Questions on the assignments will be answered at the beginning of each class time. There will be 3-5 lessons covered each week. Assignment notes are available on the CHAT math website.

Class time: Class time will always begin with review of the previous week's lessons by answering any questions the students may have. The remainder of the class time will be spent on new material.

Tests: Tests will be assigned every 2 weeks. Parents will administer (and sign) the tests and the student will turn in the test at the beginning of class the following week. All tests will be graded by the teacher and returned to the student. A Final Exam will be given during the final class period.

Grading: Assignment completion must be monitored by the parents on a daily basis to get the most possible value from the class. Students should not fall behind! Assignments will be handed in weekly. Tests will be corrected by the teacher and be returned with the percentage correct.
